2026 – Present

Manage daily Meta Ads campaigns for four bilingual (English/Spanish) lead-generation accounts.

### The Wellness Center Dominican Republic – Permanent Dental Implants & Mommy Makeover

- **Problem / Before:** Several high-ticket procedures had to be marketed at the same time to English- and Spanish-speaking patients, with cost per lead as the key efficiency metric.
- **Solution / After:** Split campaigns by procedure and language and kept testing audiences and creatives. Result: 1,145 leads on \$5,610.89 (Aug 27 – Sep 14, 2026) at a \$4.90 CPL and 2.25% CTR, the lowest CPL of my four accounts.

### The Wellness Center London Square – Bariatric Surgery

- **Problem / Before:** Lead-generation campaigns for bariatric treatments needed a lower cost per lead without giving up lead volume.
- **Solution / After:** Optimized native Meta lead-form campaigns. Result: 428 leads on \$3,789.40 (Aug 1–26, 2026) at an \$8.85 CPL and 1.41% CTR.

### Ramsaran Law Group – Chapter 7 & Chapter 13 Bankruptcy (Florida)

- **Problem / Before:** A bankruptcy law firm needed a steady flow of qualified leads from English- and Spanish-speaking Floridians dealing with debt, in a high-cost, highly competitive legal niche.
- **Solution / After:** Segmented campaigns by language and case type and reallocated budget toward the best-performing segments. Result: 121 leads on \$2,895.44 (Aug 27 – Sep 14, 2026) at a \$23.93 CPL and 1.11% CTR.

### Beautiful Outdoors – Pools, Outdoor Kitchens & Pergolas (Florida)

- **Problem / Before:** A home-services company with three product lines and separate English and Spanish audiences needed predictable lead flow for each service.
- **Solution / After:** Ran daily Meta Ads segmented by product and language, with continuous audience and flyer-style creative testing. Result: 558 leads on \$10,490.67 (Jul 29 – Sep 14, 2026) at an \$18.80 CPL, 1.67% CTR and \$2.93 CPC.

**Marketing Project Manager | Luis Feliz Caballero | Remote**

Feb 2026 – Aug 2026

- **Problem / Before:** A trading-education community expanding across Puerto Rico and LATAM needed to scale student acquisition without losing profitability on every ad dollar.
- **Solution / After:** Managed Google Ads and Meta Ads (creatives, A/B testing, retargeting) with monthly revenue attribution to decide when to scale or cut. Result: \$225,216.50 in attributed revenue on \$93,516 in ad spend (Feb–May 2026), a 2.41x ROAS.
- Built GoHighLevel automation workflows with advanced segmentation across a 41,000+ contact database, improving lead nurturing while protecting sender reputation.
- Directed a team of graphic designers, content creators and video editors, meeting 100% of deadlines for live-training campaign launches, and created the department's SOPs to shorten project turnaround.

**Digital Marketing Specialist (Concurrent Role) | Vilo Fence LLC | Tampa, FL (Remote)**

*Jul 2025 – Jul 2026*

- **Problem / Before:** The account relied on Search campaigns that had hit a scaling ceiling and had no feed structure for local e-commerce.
- **Solution / After:** Rebuilt the account with Performance Max, asset-group segmentation and high-CTR creative testing. Result: 11,310+ conversions across 4 active campaign lines, including a top line of 7,222 conversions at a \$5.49 CPA and a best CPA of \$3.06.
- Ran competitor keyword research and SEO for local search, and led the launch of a WooCommerce store that opened a direct-to-consumer revenue channel.
